

# SOURCES FOR SILICA GEL DRIED FLORALS

What you'll need: Airtight container, silica gel crystals, brush.

How: Place a layer of silica gel in a plastic tub. Carefully snip off your chosen flower heads and arrange them on the gel. Surround the flower heads with more gel until covered.

After 7-14 days - brush off gently when dry.

Rose

Hellebores

Dahlia

Ranunculus

Peony

Zinnia

Cosmos

Anemone

Tulip

Lisianthus

Pansy
